HOUSE LEADER INVASION OF CUBA TO DEMAND U. S.

Charleston, S. C., Dec. 23 (AP) — ~~Rep. L. Mendel Rivers~~ (D., S. C.), said today he would demand of Congress a United States sponsored invasion of Cuba and that he would demand United Nation sanction of it. "I assume our government planners can now fully justify the invasion of Cuba after Nehru's action in Goa," said Rivers, ranking member of the house armed services committee.

"We now have the perfect condition for an invasion of Cuba with dignity," Rivers said he would make the suggestion to Congress upon his return to Washington after Christmas.

"Every military man with nerve and sense enough to think now believes such an invasion is necessary. I'm not the only congressman who thinks like this," Rivers, of Charleston, said the United Nations could have no legitimate complaint if the United States invades Cuba.
